

II Weekly Horoscope for Gemini

5th January 2009 – 11th January 2009

Rita Ann Freeman's Weekly Horoscope:

Private Life: ☼

Money and Professional Matters: ☼

Family:

Get as much done the 5th to 7th as you can, especially in spending, organizing and errands/duties since your star show a slow down the 7th to 9th in progress, possibly due to weather in your area or the need to focus on another area of life than family/domestic. Emotions run high the 10/11th and plenty of 'discussion/s' appear to be called for on/from a variety of reasons.

Love:

Romance appears stale for the committed Twin but those in 'delicate stages' of an ongoing or growing union may see a few small set backs this week, requiring discussion on what appears to be either/both money and/or behavior. Single Twins fair best with hot hook up days near the 6th, 8th and 11th. Read the weekly partner horoscope...

Friendship:

Several different pals may request favors or have some issue/s that seems 'similar' for some reason. Would a 'get them together' tact be useful? Or perhaps just borrow experiences from one to help solve for the other? Friend-of-a-friend networking is highly likely this week.

Career:

Travel may be required this week near the 7th to 9th and pushing to clear or prepare may dominate the 5th to 7th. Moves, changes and even some layoffs or cutbacks are likely around you this week but may not include you. The jockeying of power above or laterally may open an upgrade of some kind for you in the coming days/weeks.
